THE ONLY SELF-CLEANING SPA ON THE MARKET

Our patented Self-Cleaning Technology, has resulted in the world's easiest hot tub or swim spa to maintain. The Hot Tub Self-Cleaning System cleans 100% of the water in only 10 minutes, that's an incredible 6 times an hour!

Our Swim Spa Self-Cleaning System works in 40 minutes, that's 3 full cycles every 2 hours.

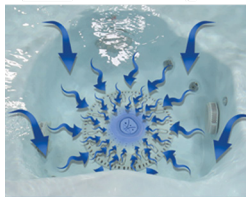

1. HYDROCLEAN FILTRATION JETS

2. HIGH FLOW SKIMMER

3. FAST FLOW FILTER

4. HYDROCLEAN FLOOR VACUUM

5. PURE WATER SYSTEM

5. PRESSURISED MICRO-FILTER

5. WATERCARE SYSTEM

EFFICIENT CLEANING IN A SERENITY HOT TUB

1. ULTRA FLOW GRILL

2. ULTRA FLOW SKIMMER NET

3. DUAL FILTRATION

4. EVERGREEN PUMP

designed to produce more Gallons per Minute with less wattage, as you can see on page 5 they blow the competition out of the water.

HYDROPOOL'S SECOND STEP TO ENERGY EFFICIENCY

Thanks to our innovations in insulation, we've mastered the art of keeping the heat in and the cold out. Combine this with the fact that our hot tubs are engineered in Canada, they end up being the most energy efficient spas in the world.

SELF-CLEANING MODEL (HOT TUB OR SWIM SPA)

- 1. EVERLAST STEEL FRAME & BASE**
No Rust, No Rot Sealed Base Locks in Heat
- 2. TRIPLE THERMAL SHEILD**
Captures & Recycles Waste Heat
- 3. THERMAL VENTS**
Variable Control in All Seasons
- 4. THERMAL HARD COVER**
Locking hard cover, the best in the industry.
- 5. AIR SOURCE HEAT PUMP READY**
Invest for Long Term Energy Savings

SERENITY HOT TUB

- 1. POLYMER INSULATED FLOOR**
Keeps Heat in & Cold Out

- 4. HYDROWISE THERMAL BLANKETS**
Engineered for Canadian Winter

- 2. UNIBODY FRAME**
Flexible Yet Strong

- 5. WEATHERSEAL CABINET**
Reflects Radiant Heat

- 3. EDGEWATER SHELL**
Strongest Shell Available

- 6. HYBRID HEAT ADVANTAGE**
Saves You Money

HOW MUCH DOES IT COST TO RUN A HOT TUB?

The determining factor of heater running costs is the temperature you keep your spa at. Of course, high quality insulation helps a ton!

Hydropool Self-Cleaning hot tubs have a customisable water care system. You can set up exactly what days of the week you want the spa up to temperature or when it should run in the economy mode. You also have the option to control the spa via an app, should you want to adjust the temperature or filtration setting while at work, or on holiday.

On average you're likely to pay **£1 - £1.50** per day, depending on the size and model of your hot tub - taking insulation, pumps, heaters, and watercare into account.

The average monthly cost to run a hot tub will range from **£20 - £60*** (excluding chemicals, depending on the size of spa, season, and usage) Cheaper than a health club membership!

HPNW SPECIAL

Depending on how often you use the spa you could be spending anywhere from **£15-30** a month on chemicals. Most of this cost will go towards sanitisers, pH adjusters, and test strips. **HydroPool North West provides a starter chemical kit with each new hot tub or swim spa purchase, which can last up to 3 months. We also offer a customer discount for additional purchases!**
